I am a student currently pursuing a B. Tech degree in Computer Engineering. I am an inquisitive person exploring the vast domain of software engineering. My thirst for knowledge is endless and I'm always on the lookout for new ideas and innovations. I am an eloquent speaker and a natural leader. I thrive under pressure and can make the best of the bleakest of situations.

Work Experience

Social Media Manager	Notebook	Oct 2020–Dec 2020
Payments team	Mumbai, India	
<ul style="list-style-type: none">Managed their social media accounts by the rigorous posting of the content of constant interactionContributed to various new features on the product.Created content for various promotional campaigns.Learnt how to function as a team and how to implement ideas in real-world scenarios.		

Education

- | | |
|---------------------------------------------------------------------------------------------------------|---------------------|
| • B. Tech Computer Engineering , K. J. Somaiya College of Engineering, Mumbai - CGPA: 8.4 | 2019–present |
| • HSC Science , Shri T. P. Bhatia College of Science, Mumbai - 78% | 2017–2019 |

Technologies and Languages

- Languages: **Java**, Python, C/C++, Python, Dart, HTML, CSS, Javascript.
- Technologies: **Spring Framework**, Flutter, Django, SQL, Git, Docker, Google Cloud Platform.
- Other: DevOps, Data structures and algorithms, Unix-based system.

Projects

- [Stonks](#) - A Web-app to predict stock market prices using social media sentiment. I **pulled and cleaned data** from various APIs, implemented the **Django MVC** model for our web app, and was a major part of the **debugging and testing** process.
- [Book 'S' Mart](#) - An **android application** to exchange books. I built this app from scratch using **Java**, enabled connectivity with a **remote Database** and deployed it as an APK.
- [Re_Imagine](#) - A **cross-platform mobile application** to browse through selected art posts from Reddit. I worked in a team to build a stable backend using **Dart** and **SQLite** and an aesthetic front-end using **Flutter**.

Certifications and Courses

- Java Programming I & II** - University of Helsinki
- [Associate Devops Engineer](#) - Cloudtrain
- [Spring Framework Masterclass](#) - in28Minutes (Udemy)

Other Skills

- Public Speaking, Creative writing
- Adobe Suite (Photoshop, Lightroom, and Premiere Pro)
- Extensive Familiarity with computers.
